Blind Spot Report

BSR-2026-FBO · FOOD & BEVERAGE · SAMPLE

SAMPLE REPORT · FICTIONAL SITE, ILLUSTRATIVE DATA

SITE	PROCESS	PERIOD	CAMERAS
Food producer, Flanders	Line 3 · filling and packing, high care entrance	Mon 12 – Fri 16 Oct 2026 2 shifts, 06:00–22:00	2 existing IP cameras

Line 3 ran 65% of planned time. Each changeover took 1 h 42, twice the plan.

Of 80 planned hours, the line ran 52. 8 changeovers with cleaning took 13.6 hours, against 6.7 planned. The changeover sheet shows 58 minutes each: the rest is waiting for the hygiene release, after the sheet is signed. At the high care door, 1 in 8 entries skipped the hand wash.

UTILISATION
65%
52 of 80 planned hours running

CHANGEOVERS
8
Avg 1 h 42 with cleaning. Planned 50 min

MICRO-STOPS
486
At the labeller, avg 53 s each

HAND WASH
1 in 8
High care entries that skipped it, of 612

Where the 80 planned hours went

HOURS PER WEEK

Running	Filling and packing, good packs out	52.0 h	65%
Cleaning and changeover	Last good pack to clean line	9.6 h	12%
Micro-stops	Stops under 2 minutes, mostly at the labeller	7.2 h	9%
Waiting for hygiene release	Line clean, waiting for the check to start	4.0 h	5%
Waiting for packaging	Line ready, no film or trays at the infeed	4.0 h	5%
Late start	After breaks and at shift start	3.2 h	4%

Your changeover sheet versus the camera

MINUTES PER CHANGEOVER, AVERAGE

CHANGEOVER SHEET
58 min
What the team writes down: last product out to clean line.

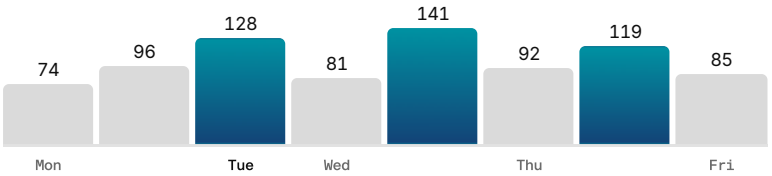

MEASURED
1 h 42
From the last good pack to the first good pack of the next product.

NOT ON THE SHEET
44 min
Waiting for the hygiene release and for packaging, after the sheet is signed.

Changeovers and the high care door

THIS WEEK

MINUTES PER CHANGEOVER, WITH CLEANING

Planned: 50 minutes. The 3 longest all waited over 40 minutes for the hygiene release.

ENTRIES WITHOUT HAND WASH, BY TIME

06–08	14%
08–12	8%
12–14	23%
14–18	10%
18–22	11%

Counted per entry, never per person.

Three findings

FINDING · WHAT TO TRY

01 **Changeovers wait for the hygiene release.**

On average 30 minutes between a clean line and the release to start. The longest waits were when QA was busy on another line.

THIS WEEK 30 min GOAL under 10 min

TRY THIS

Call QA when cleaning starts, not when it ends. Kasqade shows when the line is clean.

YOU GAIN

About 3 more running hours a week.

02 **Micro-stops at the labeller cost 7 hours a week.**

486 stops of under a minute. 6 in 10 come in the first half hour after a new label roll.

THIS WEEK 97 a day GOAL under 50

TRY THIS

Check the label roll alignment at every roll change.

YOU GAIN

About 3 more running hours a week.

03 **1 in 8 high care entries skip the hand wash.**

Most of them right after the lunch break, when everyone comes back through one door at once.

THIS WEEK 77 of 612 GOAL every entry

TRY THIS

Stagger the lunch break by 10 minutes, or open a second hand wash station.

YOU GAIN

A clean record for your next food safety audit.

The four longest events

EVERY EVENT WITH REPLAY

WHEN	WHAT	WHERE	DETAIL	FOOTAGE
Wed 14 Oct · 13:05	Changeover with cleaning, B → C	Line 3	2 h 21	REPLAY
Tue 13 Oct · 10:40	Line clean, waiting for hygiene release	Line 3	52 min	REPLAY
Fri 16 Oct · 08:15	Labeller stops after a new roll	Labeller	31 stops	REPLAY
Thu 15 Oct · 12:20	Entries without hand wash	High care door	6 in 5 min	REPLAY

WHAT THIS IS WORTH

A conservative estimate

Recoverable hours per week	6 h
Cost per line hour (your figure)	€350
Production weeks per year	48
Per year	€100,800
